

The county has four primary goals for the Assessment and Taxation department that may be addressed by ORMAP funds are:

1. Access: Provide improved access to A&T information using WEB technology.
2. Control Mapping: Improve accuracy of taxlot maps in the Urban Growth Boundaries and Rural Residential areas to meet Goal 4 mapping requirements.
3. County Boundaries: Share/Improve county line information with other counties.
4. Improve Information Utility: Improve tools, data integration, and general access at Polk County. This is an on-going process at Polk County.
5. Technology Support: Continue to support mapping applications with appropriate technology.

| <b>Task</b>                   | <b>Year</b> |
|-------------------------------|-------------|
| <b>1. Access</b>              |             |
| Taxlot Maps, Surveys, Corners | 2001        |
| Taxlot/Clerk Information      | 2002        |
| Interactive Maps              | 2003        |
| <b>2. Control Mapping</b>     |             |
| Dallas SW                     | 2002        |
| Dallas NW                     | 2003        |
| Dallas NE                     | 2004        |
| Dallas SE                     | 2005        |
| N Monmouth/Independence       | 2006        |
| NW Monmouth                   | 2006        |
| SW Monmouth                   | 2007        |
| S Monmouth/ Independence      | 2007        |
| SE Independence               | 2008        |
| Grand Ronde                   | 2008        |
| Falls City                    | 2009        |
| <b>3. County Boundaries</b>   |             |
| Yamill                        | 2003        |
| Lincoln/Tillamook             | 2004        |
| Benton/Linn                   | 2005        |
| Review/Update Marion          | 2006        |
| <b>4. Technology Support</b>  |             |
| Design/Test ArcMap            | 2003        |
| Test/Develop ArcMap Tools     | 2003/4      |
| Implement ArcMap              | 2004/5      |
